WHAT IS THE ISIC CARD?

ISIC is a non-profit organisation established in 1953 that is endorsed by the U.N and the E.U council on culture. The ISIC card is the only internationally recognised student card. Over 4.5 million cards are issued annually in over 120 countries.

The ISIC card is now the official student card of the Irish Second-level Students' Union. This means that along with the many benefits already included with the ISIC card, you are now directly supporting your national students' union.

Currently, the benefits of student status are reserved for third-level students. ISIC is bridging this gap and allowing second-level students to obtain these existing benefits, as well as the 150,000+ worldwide student discounts and benefits currently associated with the ISIC card.

With the ISIC Global App, you can now also gain access to your very own Virtual ID!
